

"To introduce holidays in other countries with the help of the theme "We love holidays"(information based on 4 th grade)"

Toshkent region Oqqo'rg'on district

3-school English teacher of the school number

Ukubayeva Norxol Tojibayevna

“The time has come to create in Uzbekistan a new system of teaching foreign languages, which will become a solid foundation for the future. Since we set ourselves the goal of building a competitive state, from now on, graduates of schools, lyceums, colleges and universities must be fluent in at least two foreign languages. This strict requirement should become the main criterion for the work of the head of each education institution”, Shavkat Mirziyoyev said.

Review

Nowadays, there is more and more talk about the benefits of learning foreign languages early, especially English, which is a world language. Because television, radio, shopping malls, entertainment venues, educational institutions, no matter where you look, a word or a sentence in English can be seen. And it seems that learning English has become equally important for everyone. And it's extremely important to start this right from an early school age. Because of the psychological characteristics of young children it is no secret that learning to speak and read English is very easy. As a result, the advantages of this approach are obvious. With teaching English it is important to introduce the cultural items, nationalities, holidays and other things of the this country. In this methodological recommendation there are given the information about teaching both English language and English culture, holidays. This methodological recommendation reaches its goal. Learning celebrities inspiration to encourage your students to learn

a language. There are some activities which are used for 4th grade learners to introduce English holidays, culture. And also these enhance pupils' integrated skills.

A two-page worksheet on months, festivals and holidays, and ordinal numbers as well ;) The exercises include spelling, matching and a quiz.

This worksheet consists of three activities. On the first page, students have to read the text about some different Christmas festivals. Then, they have to identify the festivals with the pictures below. On the second page, they have to complete the chart according to the information from the text and, the last one they have to write about some Christmas festivals from their country.

Hope you find this worksheet useful for your lessons! Find the Christmas Decorations vocabulary hidden within the word puzzle:

Here are again Christmas activities. The speaking and listening activities enable students to learn more about Christmas in Britain.

In the last activity pupils fill in the gaps and then they will have a speaking part.
